

# Behavior Modification Training Programs

Welcome to our Behavior Modification Stay & Train programs, where we specialize in coaching dogs through various situations to address and correct undesirable behaviors. Our tailored programs focus on a range of behavioral issues, including reactivity during walks, fear of noises, separation anxiety, and excessive barking. We are dedicated to helping you and your dog feel more comfortable and confident in their environment. Together, we can create a positive change for your dog’s behavior and enhance their well-being.

## 4 WEEKS

**\$5,800**

(\$750 non-refundable deposit due upon booking)

Our 4 week Behavior Modification program is designed to foster a positive mindset for your dog when experiencing stressful triggers. Throughout this journey, we will engage in a variety of exercises and commands that not only build trust but also boost your dog's confidence. This program is most ideal for dogs that exhibit leash reactivity, anxiety or aggressive behaviors when outside of the home, or signs of separation anxiety. This short-term program focuses on addressing these behaviors effectively, helping your dog feel more at ease in various situations.

## 5 WEEKS

**\$7,250**

(\$750 non-refundable deposit due upon booking)

Our Extended Behavior Modification Program! This comprehensive program builds on our 4-week approach, offering more time and repetitions to help your dog develop stronger habits. It's ideal for dogs exhibiting reactivity at home or in public, dealing with separation anxiety, excessive barking or whining, and struggling to stay calm in stressful situations. Join us to create lasting change and a more balanced life for your pup!

## 6 WEEKS

**\$8,700**

(\$750 non-refundable deposit due upon booking)

Our most comprehensive Behavior Modification program: a 6-week course personalized for shy or critically reactive dogs that require additional time to adapt. This program follows the framework of our 4 and 5-week courses but adopts a slower and more careful approach, making it ideal for dogs with a history of biting (dog to dog, or dog to human), unmanageable reactivity or aggression towards members in the home or guests visiting the home, severe separation anxiety, or notable reactivity. This program is also best fitted for dogs who have displayed destructive behavior due to anxiety. Our aim is to foster a secure and nurturing environment, assisting your dog in adjusting to new experiences while boosting their confidence.
